General Usage Rights

1

Contractual relationship	1.1.1	If you do not agree with the terms outlined in this Agreement, please refrain from purchasing, accessing, downloading, installing, embedding or using the Fonts. Except for uses explicitly permitted under this license, you are prohibited from distributing, lending, renting, selling, sharing publicly or privately, in modified or unmodified form, any version of the Fonts.
Replacement of all previous agreements	1.1.2	This agreement takes precedence over and supersedes any prior oral or written proposals or agreements between you and Sale Character.
License and copyright	1.1.3	Your purchase grants you rights under a non-exclusive, non-transferable, perpetual, and worldwide license, as outlined in this agreement. It is important to note that you are not acquiring the copyright to the design or any other components of the Fonts. The copyright remains the property of the original designer. Only our custom services can negotiate exclusivity terms for a project.
Buying on behalf of a Subcontractor	1.1.4	If you, as the purchaser, are representing the License Owner, it is your responsibility to ensure that the License Owner agrees to this EULA in its original form, without any modifications or amendments. You are not permitted to charge the License Owner a different price than the one specified by Sale Character. Definitions Terms and meaning

2

		In this EULA, the following definitions apply:
Font Software, Fonts, Font License	2.1.1	Font Software, Fonts, and Font License refer to the software developed and produced by Sale Character, which, when used with the appropriate hardware and software, allows for the generation of the typographic characters ("Fonts") available on Sale Character's website. "Licensed Fonts" shall mean the typographic characters ("Fonts") purchased by you as specified in your purchase order.
Applications	2.1.2	Applications: Applications refer to software programs capable of running and functioning on specific operating system platforms. These platforms include Microsoft Windows, Apple MacOS, Apple iOS, and Android, provided that they support the Font files in their supplied form by Sale Character. Additionally, other operating systems fall under this agreement if they also support the Font files as provided by Sale Character, though Sale Character cannot offer technical support for those systems.
Embed	2.1.3	Embed: Embedding refers to the incorporation of Fonts into applications. This involves the inclusion of Font files into an application or an application package using various methods (which may vary depending on the operating system and programming platform). The Fonts are utilized by these applications to style both dynamic and static text within them. It's important to note that you should not embed the Fonts directly into physical devices or save Font files onto a device for the purpose of selling, gifting, shipping, or otherwise transferring the device to a subcontractor.
Company Size	2.1.4	Company Size: Company Size refers to the total number of employees, including temporary staff, employed by the Licensee. It is the sole metric required for the purchase of licensed fonts. There is no requirement to collect or predict information related to web traffic, app downloads, or similar metrics.

License Owner	2.1.5	License Owner: The License Owner refers to the individual, company, corporation, or other organization covered by this Agreement due to their access or use of Font Software. The License Owner is always the end user of the license who directly benefits from it (excluding service/ad/branding agencies, print partners, freelancers, etc., who utilize the fonts on behalf of their clients). The type of License Owner is differentiated based on the organization's employee count or specific categories such as students and non-profit entities.
Designer	2.1.6	Designer: Designer refers to any entity, such as a design agency, studio, individual designer, or other service bureau, that provides services to the Licensee involving the use of the Fonts. If the License Owner wishes to grant other Subcontractor permission to use the fonts, they must purchase a Subcontractor add-on.
Subcontractor, Third party	2.1.7	Subcontractor: Subcontractor refers to any third party using the Fonts on behalf of the Licensee. Unless the Designer and Licensee are the same entity (i.e., the Designer is creating work for their own organization), the Designer is considered a Subcontractor of the Licensee. To authorize third parties to use the fonts for company-related work, the License Owner needs to purchase a Subcontractor add-on.
